

> *Empowering the Connected Economy*

Welcome to Codex

Codex is a leading provider of productivity solutions that help organizations achieve superior results by building their business around the customer.

With deep vertical market and technology expertise and our singular commitment to delivering the best service experience possible, Codex is building upon over 100 years of combined institutional strength to develop solutions that reflect a higher level of understanding than all other connected solutions, which integrate easily and cost-effectively.

Embedded best practices help Codex to consistently deliver world-class solutions for businesses looking to strengthen customer relationships, streamline key processes, and make command decisions with greater precision.

Our philosophy of treating every customer as a “guest” and recognizing that our customers, and our ability to service them well, is job one, helps us to build upon a reputation of delivering exceptional, five-star customer care.

Businesses and government organizations rely on Codex solutions everyday to work more effectively, intelligently, and profitably.

World-class solutions, end-to-end customer care, and decades of combined industry experience are helping organizations everywhere to compete and succeed in the Connected Economy.

Core Values

***“Our customers,
and our ability
to service them
well, is job one.”***

Our Core Values

Codex is guided by the Company's values of fostering innovation; to encourage cooperation and partnership; and to maintain the highest level of responsibility and excellence. Within all of these principles, integrity is central to our value system, and we work diligently to cultivate trust and confidence in our relationships with customers, vendors, and partners.

Quality Philosophy to Customers

We recognize that our customers, and our ability to service them well, is job one.

Our Commitment to Teamwork

Only through teamwork can we work to realize our goals and objectives.

Our Commitment to Professionalism

Courtesy, professionalism, and accountability are the cornerstones of our Core Values and must be exemplified at work and in the community.
